SUBLIMATION SHIRT SERIES

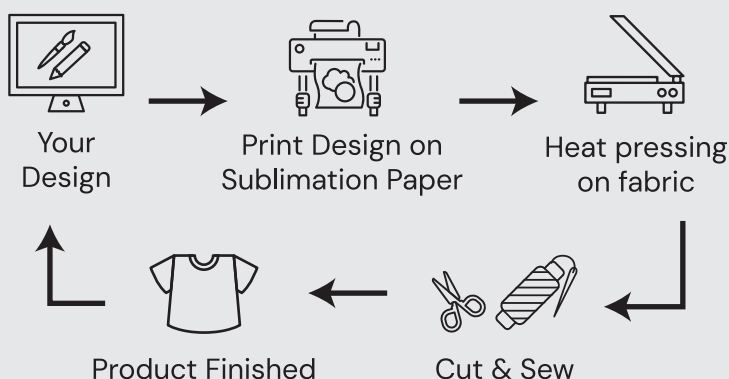

Lightweight · Breathable · Elastic

SUBLIMATION SHIRT PRINTING

Sublimation shirt printing involves transferring sublimation ink from a special paper to fabric through heat pressing, creating vibrant and durable custom designs on shirts and garments. This method is popular for its ability to produce permanent, full-color prints, making it ideal for personalized and vibrant apparel.

Sublimation shirt printing is commonly used for sports jerseys, activewear, personalized t-shirts, and other custom apparel items. It offers a versatile and high-quality solution for producing unique and eye-catching garments.
